Care and Maintenance of powder-coating

*The effects of ultra violet light, pollution, dirt,
grime and salt deposits are detrimental to
powder-coated surfaces. To comply with your
warranty regular maintenance needs to be carried
out.*

- (1) If scratched or chipped buy some touch up
and repair it.*
- (2) Keep it clean.*
- (3) Wash it down regularly with a mild
detergent or motor vehicle wash and wax
(preferred as it gives a protective coating)*
- (4) After washing, rinse off with clean water.*

Our guarantee is only valid to the original purchaser who has made a police report has been issued with job number

All our doors are custom made to your opening. They are hot dip galvanised after manufacture to prevent rusting and are then powder-coated to your choice of colour from the powder-coating colour chart. Doors come standard with a Jackson maximum security mortice lock and solid brass door handles. Optional *kick-plate* and easily replaceable *flyscreen*. All doors come in their own steel frame and have a 12mm fully welded pin hinge. All doors have a fully welded lock-box

COLONIAL CASTINGS

Established in 1947 Colonial Castings is an Australian owned company that has been making quality safety screen panels to suit safety doors for over 20 years. Rust will never be a problem, all door inserts are gravity die cast in 100% recyclable aluminium, which is also known for its durability and strength. The frames are constructed from extruded aluminium. To capture that added touch of personal style and individuality, we offer you a wide choice of colours in a hardy powdercoated finish. Naturally the powdercoating is covered by a 24 month guarantee. To extend the life of the surface we recommend doors should be washed down regularly especially in salt water environments. Colour options are indicative only.
